

The ACPlus Epos system is a second generation Epos software product. Working with .net framework and web intergration techniques. Single use, multi use and multi branch installations. Designed to intergrate with the "ACPlus Stock System" which is included in the package. The system can upload to most major accounting packages or intergrate with the "ACPlus Accounting System".

Features of our New System

- Online real time stock updating means that stock enquiries at the till are 100% up to date and that back office figures always reflect up to date sales.
- Unlimited layaways retrievable from any till.
- Stock Price Lookup.
- Save customer orders and Part payments.
- Dual version switchable for hospitality or retail/trade sales.
- Complete intergrated package available including Epos till unit, bar code scanner, thermal printer and customer display or run on standard PC hardware.
- Easy and intuitive to use.
- Full analysis within the Epos system.

Your Very Own IT Department

Multibuy Types				
Code	Qty To Buy	Disc Off Cheapest	Description	Don't Combine
B1	2	50	Buy One Get One Free!	<input type="checkbox"/>
B2	2	25	Buy 2 Get 25% Off One	<input checked="" type="checkbox"/>
B3	2	33.33	Buy 2 Get 33% Off One	<input checked="" type="checkbox"/>
B4	2	50	Buy 2 Get 50% Off One	<input checked="" type="checkbox"/>
B5	3	100	Buy 2 Get One Free!	<input checked="" type="checkbox"/>
B6	4	100	Buy 3 Get One Free!	<input checked="" type="checkbox"/>
B7	5	100	Buy 4 Get One Free!	<input checked="" type="checkbox"/>
B8	6	100	Buy 5 Get One Free!	<input checked="" type="checkbox"/>

Once you have set up the multibuy codes in here, you must assign items or groups of item to a code you have chosen. Do this in stock maintenance.
 "Don't Combine" means the multibuy discounts on items will only be applied if enough of the SAME STOCK ITEM are purchased.
 Enter 0 as the discount percent, and it will be automatically calculated to give the multibuy price on the stock item.

Save Exit

Fully featured multi-buy discounts with linked groups. Allowing buy one get 50% of cheapest for example.

Why is ACPlus your solution?

“The ACPlus Epos System enables Fast and Effective till operation”

The ACplus Epos System is designed and supported by Systems Created, to offer you a completely intergrated system capable of handling the requirements of your business.

System Fact's

- The system is available to use on most Touch Screen or dedicated POS machines.
- Single and consolidated end of day reports.
- Layaways are retrievable from any till on the network at the Branch.
